

Premium Painted Aluminum Covers

E-Z-GUTTER CONTROL™

Features:

- Maximum Debris Load
- Fastens to the Front with Screws
- Solid Perforated Painted .019 Aluminum
- Does Not Disturb Shingles

Description:

This shield rests on the back of the hidden hanger (such as H-D screw-type hangers) and fastens to the top front edge of the gutter with stainless-steel fasteners (provided). There are 8 rows of louvers for maximum rainwater flow and debris load.

E-Z to Install: Screws to the front of the gutter—a more permanent method.

Like all gutter protection products, depending on your debris type and load, E-Z-Gutter Control™ will require maintenance from time to time, by brushing off the top of the panels.

Size: E-Z-Gutter Control comes in 4 foot lengths and 5" or 6" widths.

Colors: Available in black only.
