

# PAINTED ALUMINUM COVERS

INNOVATIVE DESIGNS FOR EVERY TYPE OF GUTTER AND DEBRIS LOAD

## E-Z-HYDROCLEAN®

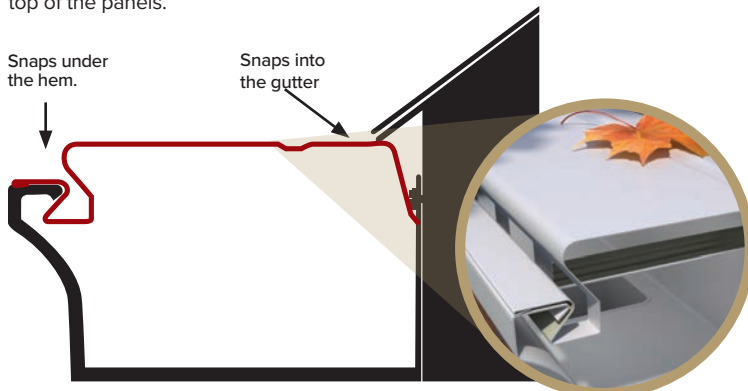

A solid gutter protection system, that uses our patented multiple front radius curves for our lowest profile. It just snaps into the gutter with our exclusive positive lock system that uses no fasteners and doesn't disturb the shingles.

This solid guard allows the water to track around the front curve (by surface tension) and into the gutter through slots. There are also pre-cut miters, with diverters, for inside and outside corners, plus pre-made endcaps.

### E-Z TO INSTALL

**It just snaps into the gutter, snaps out for easy cleaning, uses no fasteners and doesn't disturb the shingles when installed.**

Like all gutter protection products, depending on your debris type and load, E-Z-HydroClean will require maintenance from time to time, by brushing off the top of the panels.

### FEATURES

- Maximum debris load
- Patented multiple-radius front curves
- Heavy-duty .027 aluminum in 12 colors and copper
- Does not disturb shingles
- Positive lock system snaps in and out of gutter for easy maintenance
- For 5", 6" and 7" gutters with hidden hangers
- Accessories available
- Professionally-stamped endcaps to keep animals and pests out of gutters
- Pre-cut 4' long inside and outside miters
- Optional high-capacity panels for heavy rain volume areas

**SIZE:** E-Z-HydroClean comes in 4 foot lengths and 5", 6" or 7" widths.

### COLORS

White	Clay
