

PAINTED ALUMINUM COVERS

INNOVATIVE DESIGNS FOR EVERY TYPE OF GUTTER AND DEBRIS LOAD

E-Z-HYDROCLEAN HIGH CAPACITY®

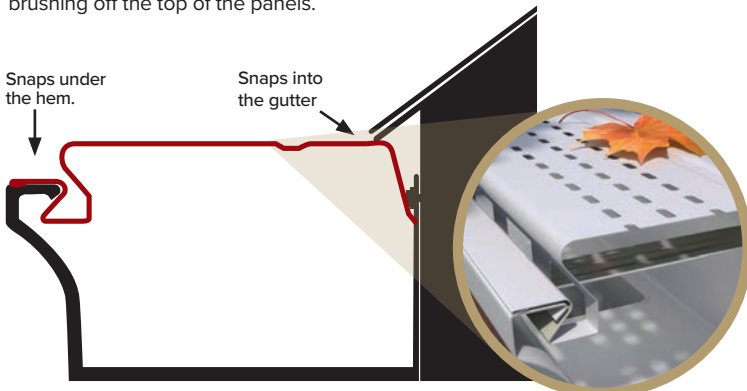

The perforations work hard to channel away excess rainwater on long runs of standard shingles, very steep roofs, and metal roofs. 5" gutters, have 3 rows of perforations, guards for 6" and 7" gutters have 6 rows to handle even greater volumes.

The panels just snap into the gutter with our exclusive positive lock system, uses no fasteners, and doesn't disturb the shingles. There are also pre-cut miters, with diverters, for inside and outside corners, plus pre-made endcaps.

E-Z TO INSTALL

It just snaps into the gutter, snaps out for easy cleaning, uses no fasteners and doesn't disturb the shingles when installed.

Like all gutter protection products, depending on your debris type and load, E-Z-HydroClean High Capacity will require maintenance from time to time, by brushing off the top of the panels.

FEATURES

- High-capacity panels for heavy rain volume areas
- Maximum debris load
- Patented multiple-radius front curves
- Heavy-duty .027 aluminum in 12 colors and copper
- Does not disturb shingles
