

PAINTED ALUMINUM COVERS

INNOVATIVE DESIGNS FOR EVERY TYPE OF GUTTER AND DEBRIS LOAD

E-Z-LEAF PROTECTION®

This cover installs into the shingles and fastens to the top front edge of the gutter with stainless-steel screws (provided).

This guard, when installed, is very strong for maximum debris and snow load, and, combined with our exclusive recessed louvers, assists debris to sweep over the front. The front drip edge helps eliminate water streaks and tiger striping.

E-Z TO INSTALL

Screws to the front of the gutter — a more permanent method.

FEATURES

- Maximum debris load, including pine needles and oak pollen
- Designed for hangers with the built-in screws
- Built-in drip edge reduces water streaks and tiger-striping
- Heaviest water load
- Perforated painted .019" Aluminum with 7 rows of patented recessed louvers
- Installs into shingles
- Available in copper

SIZE: E-Z-Leaf-Protection comes in 4 foot lengths and 5"/6" or 7" widths.

COLORS

White	Royal Brown
Clay	Black

Like all gutter protection products, depending on your debris type and load, E-Z-Leaf Protection will require maintenance from time to time, by brushing off the top of the panels.
