

POWDER-COATED STEEL SCREENS

INNOVATIVE DESIGNS FOR EVERY TYPE OF GUTTER AND DEBRIS LOAD

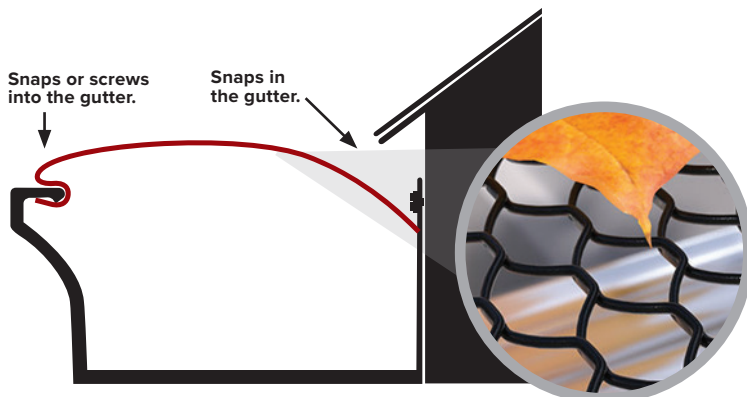

E-Z-LOCK® REGULAR HOLE

This powder-coated steel gutter screen is one of the most versatile, with two different methods of installation.

It can be snapped into the front of the gutter for quick and easy removal without disturbing the shingles, or installed under the shingles and fastened with screws to the front of the gutter.

E-Z TO INSTALL

1. Locks into gutter—snaps in and out for easy cleaning.
2. Screws to front of gutter – a more permanent method.

FEATURES

- Medium debris load
- .028 Expanded galvanized steel
- Powder-coated steel
- Available in copper

SIZE: E-Z Lock Regular Hole comes in 4 foot lengths and 5", 6", or 7" widths. Special order 8" and 9" widths.

COLORS

Black

Like all gutter protection products, depending on your debris type and load, E-Z Lock Regular Hole will require maintenance from time to time, by brushing off the top of the panels.
