

PAINTED ALUMINUM COVERS

INNOVATIVE DESIGNS FOR EVERY TYPE OF GUTTER AND DEBRIS LOAD

E-Z-MASTER FLOW®

This effective and simple-to-install aluminum gutter guard has our highest level of engineering to date — with perforations and an arched rear, this recessed cover works with both types of hangers. The arched rear assists debris forward and water downward through the perforated holes.

Available in white, mill finish, and black, (which allows ice to melt quicker.)

FEATURES

- Maximum debris load
- Snaps into the gutter — no fasteners needed
- Notched for overlap
- Heaviest water load
- Arched rear helps water flow downward
- Solid perforated painted .019" aluminum
- Does not disturb shingles

SIZE: E-Z-Master-Flow comes in 4 foot lengths and 5" or 6" widths.

COLORS

White
Mill Finish
Black

Like all gutter protection products, depending on your debris type and load, E-Z-Master Flow will require maintenance from time to time, by brushing off the top of the panels.
